## 1PDont 5 On

The ideal multiplication learning aid
This Times Table sheet is provided free to use for personal or school use.

Further copies can be downloaded
from. www.darts501.com/Maths.html

How to use:
Multiply any two numbers between 1-25.

1) Chose a number from the left hand Orange column.
2) Multiply this number by any top number.
3) Where the row and column meet is your answer!

Example:
$12 \times 11=132$

Darts501.com covers extensive details about the sport darts and the use of maths within the sport. It is important that a player knows his or her out-shots and to have quick mental arithmetic is essential for any player.

Darts is also a fun way to learn basic mathematics. The math's page of the site features a classroom video plus other maths related to darts.
A Free Darts Checkout Chart can also be downloaded from the site. www.darts501.com/Check.htm
